

NEON ZEON

NEON ZEON:

Skadi (vocals), Fernst (drums), Lepra (bass), and Joe Amped (guitars)

NEON ZEON is an emerging Progressive Black Death Metal outfit in Mannheim, Germany making heavy, original music that's destined to create an incredible legacy of innovation and rage. The band uses 8-string guitars, complex technical playing, strong melodies, blast beats, cinematic hooks, and acoustic guitar textures to write songs that stand apart from their peers and maintain a formidable identity. Influenced by metal icons like **Meshuggah**, **Metallica**, **Mayhem**, **NEON ZEON** knows what it takes to get Metal fans up and moving and does it in an artistic way that never compromises the group's vision.

Band members **Skadi (vocals)**, **Fernst (drums)**, **Lepra (bass)**, and **Joe Amped (guitars)** are all veteran musicians who have been in bands including **Azrael's Seed**, **Aethernal**, **Gaeast**, **Sartynine**, **Kurushimu**, **Forlorn Hope**, **Beaty Hardy**, **Orgasmodemon**, and **Perish Sanity**. They have appeared with major acts like **Biohazard**, **Satyricon**, **Kreator**, **Arch Enemy** on tour or at festivals like **Legacy Open Air** in Germany.

As **NEON ZEON**, the four musicians are currently recording new vocals tracks for the new album *FIRESTARTER*. They have already released a self-titled debut effort *NEON ZEON* in 2020 and a second record *ASTRAL BLISS* earlier in 2021. Their sound has been compared to **Meshuggah**, **Voivod**, but is much too expansive and expressive to be described in such simple terms. To really get it, you have to experience it firsthand. **NEON ZEON** is one of the most vitally creative bands presently building up steam in the European Metal scene and fans looking for something fresh and heavy need to get in the pit with these tracks right now.
